

# Power Edge III Reel Sharpener

## **PRODUCT INFORMATION:**

**Power Edge III Reel Sharpener** is a versatile shop tool designed to professionally sharpen Reel mower, for landscapers, home owners to most greens, tees, lightweight fairway and walk behind reel mowers. The grinding technique does not cause undue stress to the reel bearings, seals and frame associated with conventional "impact grinding". The grinding does not produce vibration and excessive movement also associated with conventional grinders thus the overall weight and mass of the grinder frame is eliminated. Equipped with an electric spin drive attachment. The Power Edge III is fully automatic. Simply place the cutting unit on top, of the grinder and start the stone motor and spin motor, make minor adjustments to align the stone to the reel and leave the Power Edge III to take care of the rest. After just a few minutes, the edges of the reel blades will be "factory fresh" with a sharp cutting edge offering maximum performance from the reel mower.

## **HOW TO ORDER:**

**The Power Edge III** is a fully automatic unit and is equipped with a stone drive, reel drive motor and auto traverse.
