

ProEdge Bed Knife Grinder

Prices start at under **\$1,000.00**

There is one word to describe the all new ProEdge Bed Knife Grinder:

SIMPLE

It sharpens both top face and front edge!

- Clamp bed bar/knife assembly to the worktable

- Set the angle

- Touch off each end

- Begin sharpening front edge

- Then move grinding stone vertically and repeat same procedure to surface the top face

Cupped stone is a special composite material that dissipates heat. NO need for water coolant.

ProEdge Bedknife Sharpener

PRODUCT INFORMATION:

The ProEdge Bedknife Sharpener is operated by pneumatic power, the frame is constructed of aluminum and has the versatility to professionally sharpen most bedknives. The ProEdge will sharpen both top face and front edge of the bedknives ensuring optimum cutting action from your reel mower. When equipped with the Rexroth ® Linear Actuator the ProEdge becomes a fully automatic machine.

HOW TO ORDER:

The ProEdge is available as a manual unit and is equipped with a stone drive. Optional accessories include the Rexroth ® Linear Actuator. The ProEdge is designed in a way that allows the Rexroth ® actuator to be installed at a later time if so desired.

ProEdge blade sharpener base unit (Manually operated) -----\$995.00

OPTIONS:

Rexroth ® Linear Actuator (Fully automatic operation) -----\$900.00
