Material Management System

Weight Star monitors the payload at all times.

OPTIONS:

Weight Monitoring

CAPACITY: 4400 LBS

Spreads Fertilizer and Sand

FEATURES INCLUDE::

Pre-programmed Off Load Control

Records can be downloaded to P/C for filing and review

GPS Tracking

Operator stays on course. Eliminates overlap or under coverage. Saves on over/under application of costly materials.

GPS Rate Control

GPS monitors speed, density of material and spread pattern. Automatically controls spread rate per acre.
